Prevent discipline problems – be free to teach!

Win-Win Discipline is the most concrete and comprehensive classroom discipline program available. Used worldwide, Win-Win transforms our concept of discipline: Discipline is not something we do to students; it is something we help our students to acquire! Are there disruptions in your classroom you'd love to eliminate? Learn winning step-by-step strategies for every discipline problem. Win-Win Discipline gives you easy-to-use strategies for prevention, for the moment of disruption, and for follow-ups. You'll learn to recognise and respond differently to seven positions that causes almost all discipline problems. Convert disruptions into learning opportunities. Disruptive students win: They learn responsible ways to meet their needs for a lifetime. The class wins: Students spend their time learning, unhindered by disruptions. You win: You get to teach without interruptions. Win-Win changes everything. Come to school excited to teach!

- Boost your confidence in handling all types of disruption
- Experience effective strategies for today's students
- Promote responsible behaviour

Extraordinary! This will change how I respond to my students and in turn how they respond to each other.

Doreen, Assistant Principal, WA

I will be singing the praises of Kagan Win-Win to every educator and non-educator I know. This is professional development worth spending my personal funds. Thank you very much!

Terry, Yr 6 teacher, NSW

This was very well presented. I will be able to go back to my class this week and apply strategies. It also will help me appreciate the struggles that my students experience.

David, Yr 7 Student adviser, NSW

Very simple structures to establish protocol for a variety of school issues and concerns. I will be able to implement these strategies straight away
